

Office of the Auditor General

Our Work

The auditor general is the auditor of every Government of Alberta ministry, department, regulated fund and provincial agency. We make recommendations to strengthen government's management control systems. From health care to infrastructure to the environment, our work touches every aspect of Albertans' lives.

Our clients are the Members of the Legislative Assembly and, through them, the people of Alberta. We provide them with information they can use to effectively oversee and scrutinize public spending.

We do this by performing a variety of financial statement and systems audits which lead to recommendations for improvements. We are responsible for the audits of more than 150 government entities such as ATB Financial, Alberta's publicly funded post-secondary institutions and Alberta Health Services.

Why Work for Us

- Our work impacts all Albertans
