Detailed recommendation list (by report, newest to oldest)

| Recommendation | When | Status |
|--|---|--|
| <p>DEPARTMENT Victims of Crime and Public Safety Fund:</p> <p>Develop and publicly report on a business plan for the Victims of Crime and Public Safety Fund</p> <p>We recommend that the Department of Public Safety and Emergency Services:</p> <ul style="list-style-type: none"> develop and approve a business plan with measurable desired results for the Victims of Crime and Public Safety Fund publicly report on the results of this business plan <p>Consequences of not taking action: If the department does not set out goals with accompanying targets and measures for the Victims of Crime and Public Safety Fund, it cannot know whether the money being spent is achieving program objectives.</p> | <p>Repeated November 2021, p. 209</p> <p>> Originally reported February 2016, no. 5, p. 46</p> | <p>Not Ready for Assessment</p> |
| <p>DEPARTMENT Provincial Hazard Assessment for Emergency Management:</p> <p>Implement a system to develop and maintain a provincial hazard assessment</p> <p>We recommend that the Department of Public Safety and Emergency Services implement a system to develop and maintain a provincial hazard assessment.</p> <p>Consequences of not taking action: Without an effective provincial hazard assessment system, the Government of Alberta may not be aware of its cumulative disaster risk exposure. It may not have the information necessary to identify its highest priority provincial hazards so that it can make informed, province-wide, evidence-based decisions. This could result in mitigation or preparedness efforts falling short. As a result, the Government of Alberta may not be investing in mitigation that meets provincial priorities. An ineffective provincial hazard assessment system could also result in the Government of Alberta incurring significant costs to respond to—and recover from—a disaster that it may have been able to mitigate or avoid.</p> <p>Incomplete or inadequate hazard assessments by ministries or local authorities may compromise the completeness and accuracy of the provincial hazard assessment system.</p> | <p>September 2020, p. 17</p> | <p>Not Ready for Assessment</p> |

| Recommendation | When | Status |
|--|------------------------------|---------------------------------|
| <p>DEPARTMENT Provincial Hazard Assessment for Emergency Management:</p> <p>Improve monitoring and reporting of recommendations from post-incident disaster reviews</p> <p>We recommend that the Department of Public Safety and Emergency Services improve the monitoring and reporting of recommendations from post-incident disaster reviews.</p> <p>Consequences of not taking action: Lessons identified in post-incident disaster reviews may not be implemented, or may not be implemented in a timely manner, resulting in missed opportunities to improve Alberta’s emergency management system.</p> | <p>September 2020, p. 18</p> | <p>Not Ready for Assessment</p> |
